# JOSHUA CLARK

SOFTWARE ENGINEER

## EDUCATION

**Bachelor's Degree in Computer Science & Psychology**  
GPA: 3.40/4.0

## EXPERIENCE

### Full-Stack Software Engineer

- Developed web app to automatically email clients when their ad campaign budgets were low, prompting them to spend more.
- Wrote scripts to analyze databases to gain insights into customer behavior.
- Work closely with product team to design, implement, and deploy new features and fixes to SpinCar's suite of apps.

### Software Development Intern

- Developed Go client and hub application to manage a network of Raspberry Pis, used to monitor server performance.

### Software Development Intern

- Created a Python application to view stacks of thin, sequential images as 3-dimensional models.

## SKILLS

### Languages

- Python
- JavaScript
- Go
- Java
- C
- HTML/CSS

### Technologies

- AWS (S3, DynamoDB)
- Flask
- MySQL/PostgreSQL

### Tools/Libraries

- Git
- JIRA
- SQLAlchemy
- Pandas
- Tensorflow
